SWMTC Proforma for the placement facilitator's report on the long placement

NB: THIS REPORT WILL BE SEEN BY THE CORE STAFF OF THE COURSE ONLY

Last modified: December 2001

Please note that you are not being asked to assess the candidate to any greater extent than in the annual report written by a personal tutor. This brief report will however help us to gain a fully-rounded picture of the placement experience and the candidate's reaction to it.

1. Please comment on *the candidate's approach to the placement*. Did he/she seem well organised, and able to relate appropriately to the placement minister?

2. Please comment on *the candidate's debriefing of the placement – informally with you at the half-way stage, and formally at the end*? Were there signs of a growth in self-awareness? Did the candidate show the capacity to digest and learn from opinions different from his/her own? Did he/she seem to be making connections between this experience and the rest of his/her training?

3. In the light of your other knowledge of the candidate, please feel free to make any other comments on what you feel has been learned from the placement, and anything that encouraged or surprised you about the candidate's reactions to it. (This might include giving a sense of how helpful a placement context you feel this proved to be.)
